The Art of Edge Finishes:

Where **Elegance Meets Craft**

Edge finishes are the poetic touchstones of stone design, transforming raw edges into statements of style and sophistication. The crisp geometry of a Bevel edge, the flowing curve of a Demi Bullnose, or the regal flair of a Dupont edge each tells a story, elevating the stone's character and presence.

These finishes not only enhance the stone's aesthetic appeal but imbue it with functionality balancing safety, durability, and refinement. From sleek modernity to timeless opulence, edge finishes are the artisanal strokes that bring depth, detail, and undeniable charm to every stone-crafted masterpiece.
